

# Antimicrobial wax Spray

## Nano Silver Wax

By Nano Tech

Silver ions ( $Ag^+$ ) can destroy single-celled bacteria, viruses, and fungi by disrupting the cell's breathing mechanism and inhibiting the metabolism of oxygen. This action annihilates the organisms' cell membranes and halts DNA replication.

AKALI's Nano Silver Antimicrobial Wax Spray can effectively inhibit bacteria, viruses, fungi, and spores and prevent surface as a medium of transmission of infection. Through nanotechnology and AKALI's the-state-of-art formulation, it not only penetrates deeper into the paint surface to provide better protection, and cleaning surface but also provides a long term germicidal effect to the surface of articles.

### Nano Tech

Antimicrobial wax Spray Nano Silver Wax

- ✓ Effectively inhibit bacteria, viruses, spores, and fungi
- ✓ Prevent surface as a medium of transmission of infection
- ✓ Prevent surface from dirt and grime
- ✓ Long term effect
- ✓ Green and Eco friendl
