

Armpit Care Spray Deodorant & Antimicrobial

By Nano Tech

Armpit sweat itself is odorless, but it creates a beneficial environment for certain bacteria to grow and produce unpleasant smelly odor. Silver ions (Ag^+) can destroy single-celled bacteria, viruses, and fungi by disrupting the cell's breathing mechanism and inhibiting the metabolism of oxygen. This action annihilates the organisms' cell membranes and halts DNA replication. Fortunately, the complex cells in our bodies have very thick cell walls and are unaffected by treatment.

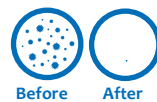

Silver ions (Ag^+) can effectively inhibit a very broad spectrum of medically relevant bacteria, viruses, and fungi and can deactivate microorganisms at very low doses, as low as 0.001ppm (1.0ppb). Although silver is a heavy metal group, it is very safe and nontoxic to human due to extremely low concentrations.

Through nanotechnology and AKALI's the-state-of-art formulation, it is not only a green and high efficient deodorant and antimicrobial spray but also can maintain germicidal effect for hours.

Nano Tech

Armpit Care Spray Deodorant & Antimicrobial

Made in
Taiwan

- ✓ Anti-bacteria, Anti-viruses, Anti-fungi
- ✓ Eliminate unpleasant smelly odor shortly
- ✓ 99.9% antimicrobial efficacy
- ✓ Long term effect
- ✓ Green and No toxicity

Antimicrobial

Prevent Infection

Deodorization

Long Term Effect

Eco Friendly

AKALI Technology Co., LTD.
5G07, No.5 Hsin-yi Rd., Sec. 5, Taipei, Taiwan
